PROFESSIONAL SUMMARY

Data Analyst with hands-on experience building interactive dashboards and writing complex SQL queries to turn raw data into clear, actionable insights. Proficient in Excel, Power BI, Tableau, and SQL, with a portfolio of self-directed projects spanning sales, HR, healthcare, and financial analytics. Seeking an entry-level Data Analyst role to apply strong data visualization and query-writing skills to real business problems.

CORE SKILLS

Excel (Dashboards, Pivot Tables, Data Modeling) | SQL (Complex Queries, Data Extraction, Optimization) | Power BI (Interactive Dashboards, DAX) | Tableau (Data Visualization) | Data Cleaning & Analysis | Business Intelligence Reporting

PROJECT EXPERIENCE

Superstore Sales Dashboard *(Excel)*

- Built an interactive Excel dashboard to analyze Superstore sales performance across multiple regions and product categories, enabling faster identification of top- and under-performing segments.

Sales Performance Tracker *(Excel)*

- Designed an Excel-based tracking tool to monitor sales performance over time and surface key growth opportunities for decision-makers.

HR Analytics Dashboard *(Excel)*

- Developed a comprehensive HR dashboard tracking employee metrics, attrition trends, and performance indicators to support workforce planning.

HR Employee Attrition Analysis *(SQL)*

- Wrote SQL queries against HR data to identify key drivers of employee turnover, translating raw records into insights that could inform retention strategy.

COVID-19 Global Tracker *(Power BI)*

- Built a Power BI dashboard delivering real-time visualizations of global COVID-19 data to support quick, data-driven situational awareness.

Healthcare Analytics Dashboard *(Power BI)*

- Created a Power BI dashboard visualizing patient metrics and healthcare operational data aimed at improving service delivery.

Financial Performance Overview *(Power BI)*

- Developed a financial analysis dashboard tracking revenue, expenses, and profitability metrics to support financial decision-making.

Loan Portfolio Analysis *(Tableau)*

- Built a Tableau visualization analyzing loan distributions, default rates, and risk factors to support credit risk assessment.

Fact Sales Inventory Analysis *(SQL)*

- Designed complex SQL queries to analyze sales and inventory patterns, supporting stock-level optimization decisions.
